AWCMA/VOEDKM:

Austrian Wire and Cable Machinery Manufacturers' Association.

Achieving greater awareness of its market leading high-tech products and Austrian engineering in the international wire and cable industry are central to the global aims of the AWCMA industry association.

The AWCMA/VOEDKM (Austrian Wire and Cable Machinery Manufacturers' Association) has been founded by Dr. Eder in 1988 and stands for wire and cable production machines and technology made in Austria. 20 specialist companies are available to provide ideal technical solutions for the wire and cable production worldwide.

The exceptionally high standard and technical leadership of the Association's members in the fields of technology and engineering are recognised worldwide and as a result, VÖDKM/AWCMA members have become preferred partners of the international wire and cable industry.
